COVID-19 Pandemic

OUR COMMITMENT to a SAFE WORKPLACE

Texas Tech University System Administration

Issued June 5, 2020

Our Commitment

The Texas Tech University System and our universities are committed to providing a safe environment at our campus and work locations for our students, faculty, staff and stakeholders. We are dedicated to advancing higher education and health care while also keeping our people safe.

• While there will be many consistencies, each component’s plans will vary to accommodate specific aspects related to its operational areas, magnitude and broader community.
Our Commitment

Guiding Parameters:

• Health and safety of employees and visitors
• Recommendations from the Centers for Disease Control and Prevention
• Leadership and health experts throughout the Texas Tech University System
• Shared Values at the Texas Tech University System Administration
Our Commitment

Shared Values:

- **PEOPLE FIRST**: Support those around us
- **COMMUNITY**: Grow together to achieve mutual success
- **RESPECT**: Value others
- **EXEMPLARY SERVICE**: Go above and beyond
- **INTEGRITY**: Adhere to strong moral principles
Our Commitment

Additional Considerations:

• Considerations for team members in vulnerable, high-risk populations
• Considerations for team members in families and households with vulnerable, high-risk populations
• Considerations for child-care needs and flexibility
• Considerations for density of workspaces
• Considerations for demonstrated productivity and efficiencies during remote work operations
Workforce Phases and Capacity

- **Phase 4** – Closed building operations, remote work for all personnel with few exceptions for essential employees
- **Phase 3** – Limiting to 25% on-site workforce capacity for department suite, with exceptions for department suites with fewer than 10 individuals
- **Phase 2** – Limiting to 50% on-site workforce capacity for department suite, with exceptions for department suites with fewer than 10 individuals
- **Phase 1** – Normal operations, full return to work locations, with specific exceptions and other productivity considerations
Workforce Phases and Capacity

• **Phase 4** – Closed Campuses/Remote Work ... *through June 7, 2020*

• **Phase 3** – Limited Physical Work Presence (~25% workforce capacity) ... *starting June 8 through July 12, 2020 *

• **Phase 2** – Partial Physical Work Presence (~50% workforce capacity) ... *starting July 13 through August 9, 2020 *

**Current Phase**

• **Phase 1** – Full Physical Work Presence (full return, on-site workforce capacity) ... *starting August 10, 2020*

* Tentative phased-in return is subject to change in monitoring the containment of COVID-19 pandemic. Additional modifications may apply for specific departments.
Health and Safety Protocols

Personal Protective Equipment (PPE) and Sanitation Coordination

• Coordinate purchasing of equipment and supplies through TTU Procurement and TTU System Administration CFO Office
  • Order requests and distribution managed through David Mondt and Cynthia Jobe

• Providing: no-touch forehead thermometers, door stops, cleaner, hand sanitizers (individual, refills, stations)
  • Face coverings, gloves and sanitation wipes available upon request (limited supplies available)

• Communication: Posting work location signage (awareness and informational)
Health and Safety Protocols

Face Coverings

• Required for all employees and visitors at on-site office locations until further notice, per a memo from Chancellor Tedd L. Mitchell, M.D., following a statewide update on COVID-19 protocols from Governor Greg Abbott (March 3, 2021).

• Employees are responsible for obtaining personal face coverings

• Worn in high-traffic, common areas, such as lobbies, hallways, shared spaces, conference rooms and restrooms, as outlined in the TTU System Facial Covering policy

• A limited supply will be available and provided by the TTU System Administration for visitors and employees
  • Distribution coordinated and managed through Cynthia Jobe (cynthia.jobe@ttu.edu or 806-834-1258)

• Wearing of face coverings in individual office suites or personal offices is to be determined by department supervisors or respective Vice Chancellor
Health and Safety Protocols

Daily Health Screening Assessment

• Before arriving at work, it’s highly recommended to undergo daily health screenings.

• All team members who come to work are asked to self-assess that they are not exhibiting COVID-19 symptoms before beginning their workday. Symptoms* to be looking for include:
  
  • Cough
  • Shortness of breath
  • Fever
  • Chills
  • Repeated shaking with chills
  • Muscle pain
  • Headache
  • Sore throat
  • New loss of taste or smell
  • Vomiting

• If you are sick or not feeling well, please notify your supervisor and stay home.

* Symptoms should not be attributable to another known medical condition
Health and Safety Protocols

Sanitation & Health Etiquette

• **Highly encourage practicing personal hygiene and social distancing**
  • Thorough washing of hands often (for 20 seconds)
  • Avoid touching your eyes, nose and mouth
  • Avoid close contact by putting distance between yourself and others (6 feet)

• **Sanitation supplies and cleaning**
  • Providing hand sanitation stations, sanitizer in shared areas and conferences rooms
  • Encouraging individuals to sanitize shared spaces after use with disinfectant spray or wipes
Building Access and Operations

**Visitors & Guests:**

- The TTU System Building is open to visitors and guests in accordance with proper social distancing and space capacity.
- TTU System Building COVID-19 protocols should be shared with visitors.

**Public Gatherings:**

- Limit gatherings to 10 or fewer people, unless proper social distancing can be achieved.

*As of:* March 9, 2021
Building Access and Operations

Shared Spaces & Conference Rooms:

• Shared spaces, conference rooms and common areas are available for use, in conjunction with required social distancing and facial coverings.
  o Please continue to coordinate reservations through the online reservation system and Cynthia Jobe.

• Sanitation supplies will be available for individual cleanings in shared conference spaces.
  o Virtual and/or hybrid gatherings are recommended when social distancing among meeting participants is not achievable.

Department Suite Protocols:

• Additional health and safety measures may be determined by department supervisors and respective Vice Chancellors

As of: March 9, 2021
Work Sponsored Travel

• **Phase 4** – Cancel all work-sponsored travel and adhere to [CDC](https://www.cdc.gov), [U.S. Department of State](https://www.state.gov), and Texas state guidelines.

• **Phase 3** – Restrict nonessential travel and adhere to [CDC](https://www.cdc.gov), [U.S. Department of State](https://www.state.gov), and Texas state guidelines.

• **Phase 2** – Restrict nonessential and international travel based on [CDC](https://www.cdc.gov), [U.S. Department of State](https://www.state.gov), and Texas state guidelines.

• **Phase 1** – Minimize nonessential and international travel based on [CDC](https://www.cdc.gov), [U.S. Department of State](https://www.state.gov), and Texas state guidelines.
Future Phases, Ongoing Operations Considerations

The TTU System Administration executive leadership team continues monitoring the impact of the COVID-19 pandemic to adjust operations and determine protocols based on demonstrated efficiencies, health and safety.

Please share comments or feedback to your respective supervisor and/or Vice Chancellor. Additional questions and comments can be submitted to chancellor@ttu.edu.
COVID-19 Vaccine Distribution

Texas Tech University has applied and been approved to serve as a location for the COVID-19 vaccine distribution in later phases. Distribution of this vaccine on campus will be limited to current faculty, staff and students and not the general Lubbock community. Family members of students, faculty and staff will not be eligible to receive vaccines. For more information

Beginning Friday, January 15, current students, faculty and staff can use the following link to submit their vaccination request. Vaccination Requests
Free Testing Available

• Free on-campus COVID-19 testing for employees, provided by the Texas Department of Emergency Management, has been extended through the 2021 spring semester. The testing location for the spring will be located at 2533 15th Street, East of the Student Union Building (in front of McClellan Hall).

  • Pre-registration is not required, but employees should use their TTU email address when registering at the testing location.

  • Please wear your masks and maintain social distancing at all times while at the testing location.

  • More information on free testing
What To Do If You Become Ill, Potentially Exposed

• If individuals are symptomatic, they are required to stay home, seek proper medical advice, including testing, and inform their supervisor.

• Emergency Paid Sick Leave can be used for those team members required to self isolate or quarantine.

• All team members who are sick from any cause should use normal sick leave procedures.

• If you become ill or have been diagnosed with COVID-19, you should make a disclosure to your supervisor. Additional contact tracing will be managed by the local Health Department.
What To Do If You Become Ill, Potentially Exposed

It is important that you familiarize yourself with the following COVID-19 resources, so that everyone is prepared for when they need to make a notification or support a team member who has tested positive for COVID-19:

- Employee Positive Test Notification and Protocol — Flowchart
- Supervisor’s Guide
- Employee’s Guide
- TTU/TTUSA COVID-19 Management System
TTU System Building Exposure Notifications

Notification Protocols:

• Report the positive case via email to Dailey Fuller, David Mondt and Cynthia Jobe with the following information:
  • *Employee’s name ... Date of positive COVID-19 test ... Department ... Current status (as available) ... work, shared spaces to be sanitized*

• Cynthia Jobe will send the email notification to employees in the TTU System Building

• Cynthia Jobe will contact Operations to clean and sanitize works station and common areas.

• Supervisors will share with respective department and directly contact employees with potential high-risk exposure, as necessary.
Steps for COVID-19 positive employees

Self-Isolate and Inform Immediate Supervisor:

• Employees who test positive must report their positive test results through the TTU/TTUSA COVID-19 Management System.

• Employees may work remotely during the self-isolation period, dependent upon the nature of their work, supervisor guidance, and ability to work due to their health. An employee who is ill should take the appropriate leave and not work while on sick leave.

• Employees who are not able to work remotely should contact Human Resources by emailing hr.leaveadministration@ttu.edu or calling 806-742-3650 to determine their leave and paid status under the Emergency Paid Sick Leave and Family and Medical Leave Acts.
Steps for COVID-19 positive employees

Return to Work Determination:

• Employees who have tested positive for COVID-19 or have COVID-19 symptoms may return to their work location after:
  1. At least 10 days* have passed since symptom onset, and
  2. At least 24 hours have passed since resolution of fever without the use of fever-reducing medications; and
  3. Other COVID-19 symptoms are improving; and
  4. Employee provides both their supervisor and Human Resources (hr.leaveadministration@ttu.edu) with a copy of their return-to-work clearance letter from TTU Student Health Services

• Individuals who test positive, but do not develop COVID-19 symptoms, may return to work after 10 days of self-isolation.

• A negative COVID-19 test is not required to return to work after testing positive.

• *A limited number of individuals with severe illness may warrant extending during of isolation for up to 20 days after symptom onset.
Additional information and considerations for potential COVID-19 exposure

Quarantine:

• Employees who have been identified as a high-risk contact of someone who was infected (within 6 feet of an infected person for at least 15 minutes and infected person was unmasked) with COVID-19 will be asked to quarantine in accordance with the COVID-19 Positive Employee Test Notification and Protocol decision tree.

• Daily self-monitoring of symptoms should be completed using the TTU/TTUSA COVID-19 Management System.

• A person in quarantine with no COVID-19 symptoms is cleared to return to work following the 10-day quarantine, or seven days following a negative COVID-19 test within 48 hours of the anticipated return to work.
Additional information and considerations for potential COVID-19 exposure

Testing:

• People who have symptoms of COVID-19 should get tested.

• People who have had close contact (within 6 feet of an infected person for at least 15 minutes and infected person was unmasked) with someone with confirmed COVID-19 should get tested.
  
  o The test should be performed 6-8 days following the exposure to reduce risk of a false negative result.

• If you get tested, you should self-quarantine/isolate at home pending test results and follow the advice of your health care provider or a public health professional.
Taking Care of Each Other

“Throughout this COVID-19 pandemic, our commitment to one another has never been more important. We are dedicated to providing a safe work environment for everyone on our team; however, we also need your help to ensure our success. These times require us all to take health and safety seriously. We must all do our part and take care of each other.

“And by doing so, we are living our shared values in taking care of our community and putting people first.”

— Chancellor Tedd L. Mitchell, M.D.
