

# TEXAS TECH UNIVERSITY SYSTEM

## INTERMEDIATE TERM INVESTMENT FUND (ITIF)

3rd Quarter—May 31, 2020

Fiscal Year 2020

### Market Overview

Risk assets pushed higher in May as economies around the world began reopening and relaxing restrictions. While COVID-19 remains a dominant headline, news of progress in developing a vaccine and signs of a rebound in economic activity bolstered market sentiment.

Over the past month, the US has been hit by a slew of weak economic data: the unemployment rate hit 14.7%, corporate earnings contracted significantly, and the CPI increased 0.3% year-over-year. Despite the bleak data, domestic equities pushed higher – extending their recent rally. The S&P 500 Index increased 4.8% for the month.

International and emerging market equities also increased last month, with the MSCI EAFE and MSCI EM indexes up 4.4% and 0.8%, respectively. International developed markets experienced a currency tailwind as the dollar weakened relative to local currencies.

### Major Index Returns for May:

- S&P 500: 4.76%
- MSCI EAFE Index: 4.35%
- MSCI EM (Emerging Markets): 0.77%
- Barclays US Aggregate Bond Index: 0.44%

### ITIF Valuation: \$771.5 Million
