Texas Tech Health El Paso is a leading catalyst for change in our Borderplex region. We are empowering the people we serve by removing barriers to health care and providing students from our region and beyond with life-changing educational opportunities, impacting their families for generations to come.

We are the only health sciences center on the U.S. – Mexico border designated as a Title V Hispanic-Serving Institution, providing outreach and care for residents in 108 historically underserved counties in West Texas.

Our annual economic impact in our region is **$634 Million**

**FOSTER SCHOOL OF MEDICINE**

Since opening the Foster School of Medicine in 2009, we have grown the number of physicians in our region from: **1,034 to 1,715**

- **26%** of students hail from U.S. - Mexico border counties, including El Paso County. And 30% identify as Hispanic.

The Foster School of Medicine is one of the first medical schools in the U.S. to integrate medical Spanish into its curriculum.

Students gain first-year clinical experience at Texas Tech Physicians of El Paso clinics, a nontraditional approach among most U.S. medical schools.

**HUNT SCHOOL OF DENTAL MEDICINE**

- **39%** of students hail from New Mexico, West Texas and border regions of Texas, including El Paso County. Nearly 31% identify as Hispanic.

- **61%** of students consider themselves bilingual or multilingual.

To date, students have provided nearly **29,000 hours** (and counting!) of patient care in the Texas Tech Dental Oral Health Clinic.

**HUNT SCHOOL OF NURSING**

Since opening the Hunt School of Nursing in 2011, we have increased the number of registered nurses in the county by **45%**

- **88%** of students identify as Hispanic.

- 97% call El Paso their hometown.

Pipeline programs with area high schools allow aspiring nurses to jump-start their education and earn their B.S.N. just 16 months after high school graduation (the only program of its kind in the region).

To date, we’ve graduated **1,347** nursing leaders.
In 7 years, we've graduated 192 expert researchers.

STEVE AND NANCY FOX CANCER CENTER

HOPE begins here.

The first comprehensive cancer center to serve West Texas and our Borderplex region, the Steve and Nancy Fox Cancer Center will transform the way we treat cancer for our families, friends and neighbors. It will open the door to world-class cancer care, elevate life-saving research and bring opportunities for innovative clinical trials HERE ... in the community we call home.

Our life-saving breast, cervical, colorectal and HPV-related cancer prevention programs have impacted nearly 61,100 patients from 105 West Texas counties.

The Fox Cancer Center was made possible thanks to a $65 million appropriation from the Texas legislature and supported by a $25 Million investment from community leaders Steve and Nancy Fox.

Texas Tech Health El Paso is the hub for mental health programs TCHATT and CPAN.

The CPAN network includes 16 counties along the Texas-Mexico border, from El Paso to Eagle Pass.

57% of students identify as Hispanic.

Our research focuses on health issues prevalent in our Borderplex and across the U.S.: Cancer, Type 2 diabetes and heart disease.
