May 11, 2021

Dear TTUSA team members,

Five months ago, in December 2020, the Values Engagement Team requested stories describing the different ways groups or individuals were implementing our Shared Values within the TTU System Administration. We were looking for specific examples in which current practices were adjusted or new practices were adopted to engage the Values.

While many wonderful stories were submitted and more than worthy of telling, the six stories chosen to highlight the Values Based Culture at the TTU System Administration can be found here:

TELLING OUR STORY

The Engagement Team would like to express its sincere gratitude to all who submitted their story and to those who sat down to share their thoughts on video. A special thanks
goes to Scott Lacefield, Laura Hayes, David Mondt and Jenna Hightower for their dedication to this initiative.

Sincerely,

TTU System Values Engagement Team
